THE CLASS
OF
1995

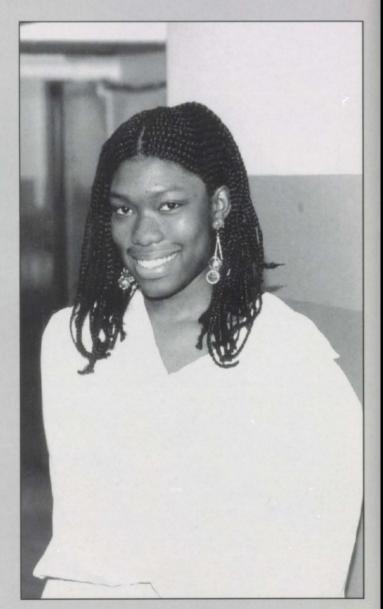

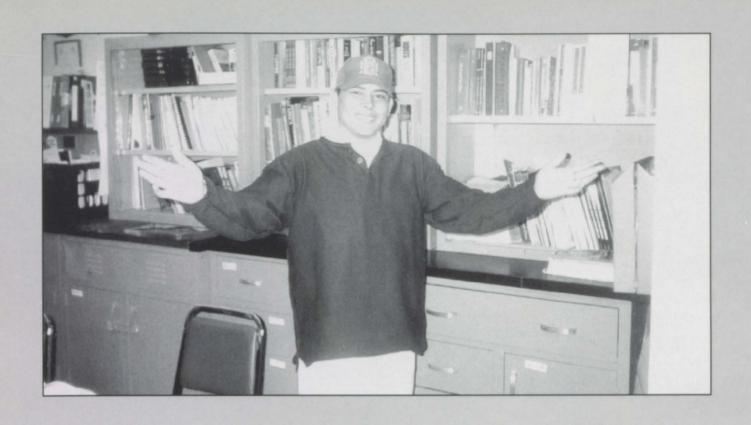

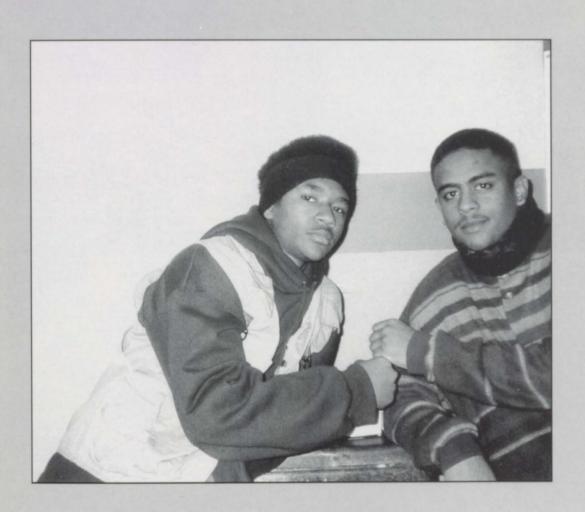

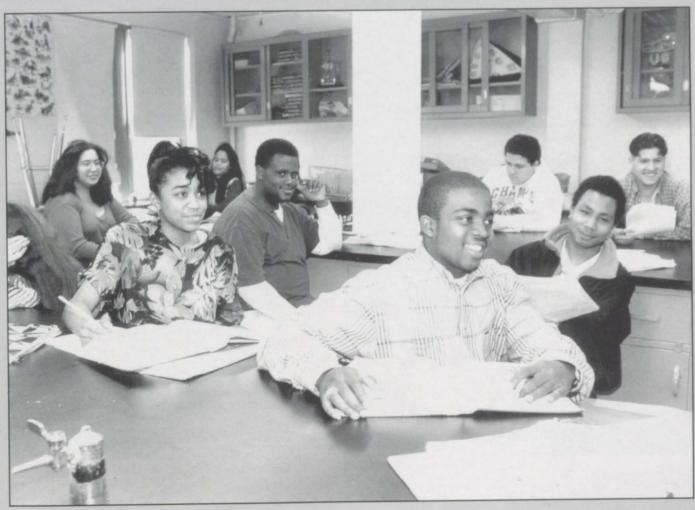

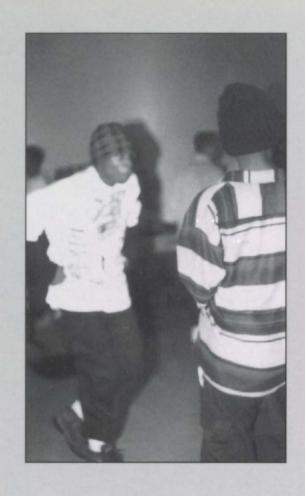

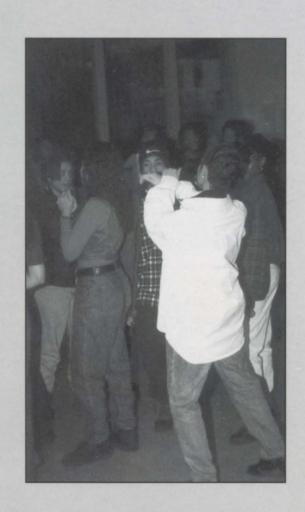

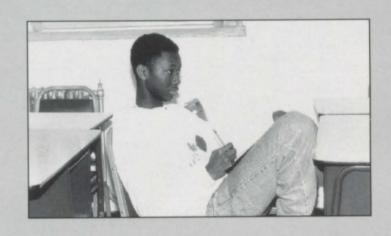

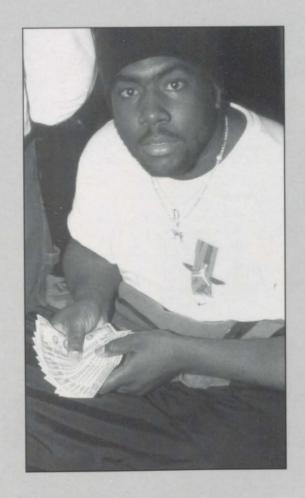

40-L — MR. HENRIQUEZ

410 — MR. O'MEAL

401 — MR. RANA

40-R — MR. ROCCO

We thank your homeroom teachers for their help in bringing us through this final year of high school to our graduation day.

The Class of 1995

#### TO MRS. JACQUELINE REYNOLDS, OUR GUIDANCE COUNSELOR:

We, the class of 1995, would like to sincerely thank you. Because of the time, effort, and very careful consideration that you gave us, we have overcome the frustrations of trying to get our future lives organized. And now we are on the road to success! We wish to express our utmost appreciation and love to you.

THE GRADUATES

#### **DEFINING MOMENTS**

"Defining Moments" are experiences in life that are so powerful that they permanently etch themselves into your memory and become part of your character.

High school graduation can be considered a "Defining Moment." Reflect if you will, on the years of hard work, frustrations, fear and doubt that you experienced getting to this point. Nevertheless you focused your thoughts on winning, persevered with determination that probably surprised even yourself. Congratulations on having reached this milestone in your life.

Your greatest "Defining Moments," however, lie ahead of you, i.e., higher education, career, marriage, parenthood, civic duty, etc. I offer the following advice: remember the exhilaration of having successfully achieved this milestone. Use this success to fuel the determination with which you pursue the "Defining Moments" that await you. Every opportunity requires you to decide whether you will approach it driven by your fears of failure or your desire to succeed. In each instance, remember to focus your thoughts on success and approach each opportunity with determination.

The content and strength of your character are determined, in part, by the lessons learned from life's "Defining Moments." I sincerely hope that your graduation symbolizes the success with which you will encounter your "Defining Moments" in life.

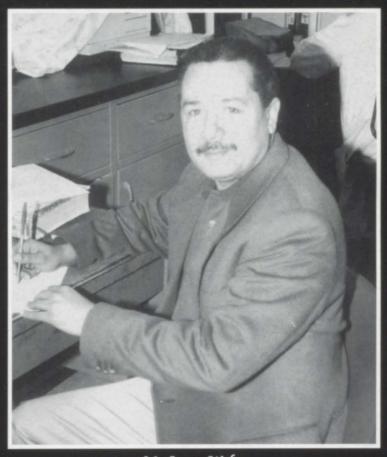

#### TO MR. WILLIAM McNEIL AND MR. JAMES WALTZ, OUR CLASS ADVISORS:

We, the class of 1995, would like to thank you both for all your good advice, assistance, and patience. We thank you for helping us to accomplish our class theme — to be different.

THE GRADUATES

Mr. William McNeil

Mr. James Waltz

#### How They Got Here

NORTH SECTION II, GROUP I Science 57, Cedar Grove 46 Science 64, New Providence 48 Science 66, Kinnelon 65 STATE SEMIFINAL Science 59, Park Ridge 51 STATE CHAMPIONSHIP Science 68, Burlington City 61

#### Championship Notes

The Blue Devils from Burlington City must have felt like the victim in Thomas Dolby's '80s hit ''She Blinded Him with Science.'' A 20-point lead erupted like a white flash, and a team that sank 11 of 16 field goals in the first period, suddenly couldn't reach the goal in the second half. The second Newark team to earn a trip to the T of C, Science never gave up the press and wore down their Burlington counterparts dramatically. A 23-2 tear in the third quarter dashed "the City's" hope of its first state championship. Instead Science forced 15 turnovers, and BC became stuck in mud at "47". By the time the Blue Devils got untracked, Science had constructed a 58-55 lead, and was not headed. A well-balanced attack received 14 points and 15 boards from 6-6 center Isaac Green, 12 points from Jamarr Delavney and 10 points off the bench from Steven Conway. Science is overjoyed at its first trip in the final. It has accomplished the biggest turnaround among any team in the T of C. Last year, the Chargers struggled with a 9-11 record. This year, Science upset no. 20-ranked Kinnelon on its way to the top. Along with Green, who averages 15.2 ppg., Science has gotten strong contributions from underclassmen Omar Howard (12.0) and Derrick Ketchen (10.3).
